Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the Federal Register concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Type of Information Collection Request: Extension without change of a currently approved collection; Title of Information Collection: Clinical Laboratory Improvement Amendments of 1988 (CLIA) Budget Workload Reports and Supporting Regulations; Use: We will use the collected information to determine the amount of Federal reimbursement for surveys conducted. Use of the information includes program evaluation, audit, budget formulation and budget approval. Form CMS-102 is a multi-purpose form designed to capture and record all

budget and expenditure data. Form CMS-105 captures the annual projected CLIA workload that the State survey agency will accomplish. Our regional offices also use the information to approve the annual projected CLIA workload. The information is required as part of the section 1864 agreement with the state. Form Numbers: CMS-102 and CMS-105 (OCN: 0938-0599); Frequency: Quarterly; Affected Public: State, Local, or Tribal Governments; Number of Respondents: 50; Total Annual Responses: 50; Total Annual Hours: 4,500. Every MAO must have a QI program that monitors and identifies areas where implementing appropriate interventions would improve patient outcomes and patient safety. Information collected using the CCIP and QIP reporting tools is an integral resource for oversight, monitoring, compliance, and auditing activities necessary to ensure high quality value-based health care for Medicare beneficiaries.
